Project Design Phase-II

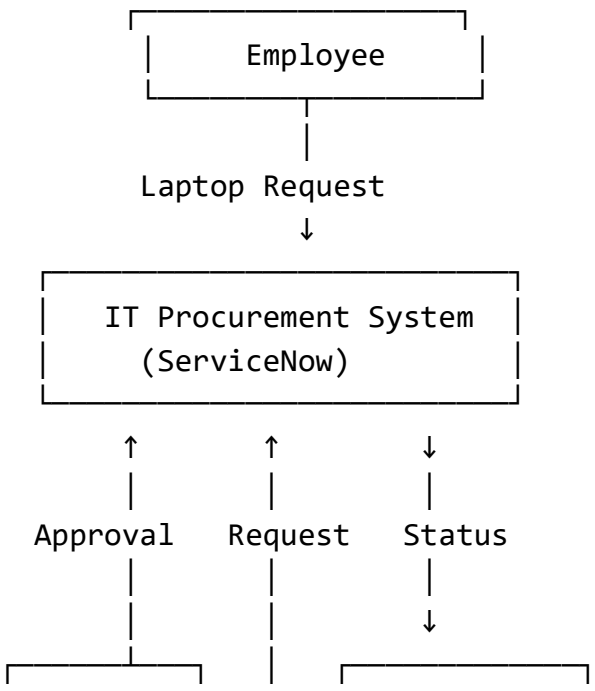

Data Flow Diagram & User Stories

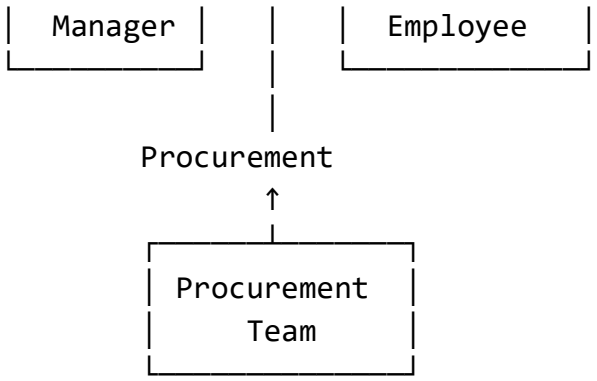

Date	03 October 2026
Team ID	SWTID-2026-5094
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer
Maximum Marks	4 Marks

1. Data Flow Diagram (DFD)

A Data Flow Diagram represents how information moves through the **standard laptop procurement system**.

Level 0 – Context Diagram

Main Data Flow

Employee → Laptop Request → ServiceNow → Validation → Manager Approval → Procurement Task → Procurement Team → Order Status → Employee

Data Stores

- **D1 – Employee Details**
- **D2 – Laptop Request Details**
- **D3 – Approval Details**
- **D4 – Procurement/Order Details**
- **D5 – Notification and Status Details**

2. User Stories

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance Criteria	Priority	Release
Employee	Laptop Request	**USN-1**	As an employee, I can submit a standard laptop request by entering my	Request is successfully created with all mandatory details.	High	Sprint-1

			required details.			
Employee	Laptop Request	**USN-2**	As an employee, I will receive a confirmation notification after submitting my laptop request.	Confirmation notification is received after successful submission.	High	Sprint-1
IT Administrator	Request Validation	**USN-3**	As an IT administrator, I can validate the employee's laptop request.	Request details are checked and validation status is updated.	High	Sprint-1
IT Administrator	Laptop Availability	**USN-4**	As an IT administrator, I can check whether the standard laptop is available.	Laptop availability is checked before approval/procurement.	Medium	Sprint-1
Manager	Approval Management	**USN-5**	As a manager, I can review and approve or reject a laptop request.	Manager can approve or reject the request.	High	Sprint-2

Manager	Approval Management	**USN-6**	As a manager, I can view the employee and laptop request details before approval.	Complete request information is available on the approval screen.	High	Sprint-2
System	Flow Automation	**USN-7**	As a system, I can automatically trigger the procurement flow after a valid request is submitted.	Flow Designer starts the configured workflow automatically.	High	Sprint-2
Procurement Team	Procurement Processing	**USN-8**	As a procurement team member, I can receive a procurement task after manager approval.	Procurement task is automatically created and assigned.	High	Sprint-2
Procurement Team	Order Management	**USN-9**	As a procurement team member, I can update the laptop	Order status can be updated from pending to ordered/delivered.	Medium	Sprint-3

			order status.			
Employee	Order Tracking	**USN-10**	As an employee, I can track the status of my laptop request.	Employee can view the current request/order status.	High	Sprint-3
IT Administrator	Notification Management	**USN-11**	As an IT administrator, I can send automatic notifications for request status changes.	Notifications are generated when the configured status changes.	Medium	Sprint-3
IT Manager	Dashboard	**USN-12**	As an IT manager, I can view laptop requests and their current status on a dashboard.	Dashboard displays pending, approved, ordered, and completed requests.	Medium	Sprint-4
IT Administrator	Workflow Testing	**USN-13**	As an IT administrator, I can test the complete laptop procurement workflow.	Request successfully moves through validation, approval, procurement, and completion.	High	Sprint-4

IT Manager	Reporting	**USN-14**	As an IT manager, I can monitor completed and pending procurement requests.	Request information and status are available for monitoring.	Medium	Sprint-4

3. User Types

User Type	Main Responsibility
Employee	Submit laptop requests and track order status
Manager	Review and approve/reject requests
IT Administrator	Validate requests, manage workflow and notifications
Procurement Team	Process approved laptop orders and update order status
IT Manager	Monitor requests, dashboard and procurement progress

Overall Workflow

Employee

↓

Submit Laptop Request

↓

IT Administrator – Validate & Check Availability

↓

Manager – Approve/Reject

↓

Flow Designer – Automate Process

↓

Procurement Team – Process Order

↓

Employee – Receive Notifications & Track Status

↓

Laptop Delivered → Request Completed
